

## The VOSS Training Program

## “Fitter” assembly training

---

**Target group:** Employees from assembly

---

- Assembly in theory and practice
    - Cutting ring systems acc. to DIN 3859-2
    - Tube forming systems
    - Flared systems
    - Male stud couplings
    - Taper couplings
  - Causes of errors and avoiding them
  - Tools and accessories
- 

**Duration:** approx. 2 hours / **Certificate:** Certificate of Participation

---

## “Coupling Technology” assembly training

---

**Target group:** Employees from assembly, maintenance, service, engineering, sales

---

- Basics of the coupling product line
  - Surface technologies
  - Assembly in theory and practice
    - Cutting ring systems acc. to DIN 3859-2
    - Tube forming systems
    - Flanging instead of welding
    - Male stud couplings
    - Taper couplings
    - Repeat assembly and retightening a connection
  - Causes of error and avoiding them
  - Tools and accessories
  - Repair or exchange of a defective line
- 

**Duration:** approx. 4 hours / **Certificate:** Certificate of Participation

---

## Fundamental Product Training

---

**Target group:** Purchasing, service, engineering, sales

---

- Basics of the coupling product line
  - Surface technologies
  - Overview of couplings and VOSS product names
  - Overview of tube connection systems
    - Distinguishing features
    - Selection of the correct system
  - Assembly in theory and practice
    - Process reliability from tube preparation to final assembly
    - Causes of errors and preventing errors during handling
    - Tube installation
- 

**Duration:** approx. 4 hours / **Certificate:** Certificate of Participation

---

## Assembly Audit

---

- Checking the conditions on site
    - Tube preparation
    - Pre-assembly
    - Process sequence and process reliability
    - Final assembly
  - Showing improvement potential based on a created protocol
- 

**Duration:** approx. 4–6 hours

---

## Optimizing the coupling technology

---

- ACTUAL recording
  - Documentation
  - Showing improvement potential in regards to reliability and cost-effectiveness  
incl. documentation
- 

**Duration:** min. 1 day

---

## Price Overview

"Fitter" assembly training (approx. 2h)	<b>250,00 € / group</b>
"Coupling technology" assembly training (approx. 4h)	<b>500,00 € / group</b>
Fundamental product training (approx. 4h)	<b>500,00 € / group</b>
Assembly audit (approx. 4–6h)	<b>600,00 €</b>
Optimizing the coupling technology On systems and devices with preparation (2-3 persons; min. 1 day)	<b>1.200,00 €</b>

Travel and expenses are added to this based on the distance. These are invoiced separately and vary due to the travel time and possible overnight stays. Training materials and other materials included in the price.
